DUCKS

Sugar Feather Farm has ducks for sale and we ship nationwide throughout the hatching season. You can mix and match your ducklings. At Sugar Feather Farm, we take pride in shipping healthy baby waterfowl to satisfied customers on a weekly basis.

We specialize in ducks that are on the conservation list and/or ducks that we feel are useful, practical and great to have around. Duck eggs are packed with nutrients and wonderful in baking. Many find if have a chicken egg allergy, they are not allergic to duck eggs.

We are a farm who takes pride and care of all our fowl. Our fowl are treated with a "wholistic" approach. All of our waterfowl are fed an excellent customized diet for the best overall performance.

HERITAGE DUCKS

Country of Origin: United States

Primary Use: Dual Purpose

Bird Size: 6-7 lbs

Egg Production: 175-200 year

Egg Size: Large

Egg Color: Blue/Green, Gray,White

Hardiness: Heat and cold tolerant

Temperament: Friendly broody

Livestock Conservancy Status: not applicable

Occasionally and seasonally, we have some of our duck breeds together socializing, eating and exploring. During this time we don't monitor breeding and will have lots of surprise duckling colors! These can be combinations of our breeds we have or pure, you never know. The combinations are beautiful, they possess all the same qualities of our other breeds just coloring's will be a surprise! All good layers, hardy and wonderful additions to your homestead. Want to give ducks a try? You can start this way. They can be a combinations of the following:

Silver Appleyard
Cuyuga
Khaki Campbell
Buff Orpington
Swedish Black

We don't offer sexing of the ducklings. We feel it is not in the best interest of the ducklings. All...

SILVER APLEYARD DUCK

Country of Origin: Britain

Primary Use: Triple purpose

Bird Size: 7-10 lbs

Egg Production: excellent

Egg Size: large

Egg Color: white

Hardiness: hardy

Temperament: Quiet, good mothers, friendly

ALBC Priority: critical

We are very excited to offer our Silver Appleyard Ducks. This is a fairly rare and unknown large duck breed. They are a heritage breed of duck on the conservation list under "threatened". They are raised for exhibition, feathers, pets, eggs and eating - so used for a triple purpose! They are one of the best layers of the heavyweight duck class averaging 220-265 a year! That egg production is simply amazing. The Silver Appleyard is a large, strong built duck that weighs between 8-9 pounds. They tend to get larger faster and also make an excellent meat duck, without all the issues that Pekins have. Our flock is very healthy, strong and bred to APA Standard. Appleyard's are great foragers, with calm temperaments and we would say friendly...

CUYUGA DUCK

Country of Origin: New York

Primary Use: Dual Purpose

Bird Size: 6-7 lbs

Egg Production: Great

Egg Size: Large

Egg Color: Light Blue or Gray

Hardiness: Heat and cold tolerant

Temperament: Friendly broody

Livestock Conservancy Status: [Watch](#)

The Cayuga is recognized as one of the hardiest of the domestic ducks and their coloring is simply stunning. They tolerate the harsh winters of the Northeast since they are from New York and are great layers and mothers. This is a dual-purpose breed, meaning they are used for egg production and meat. The meat of the Cayuga is reputed to be of excellent taste and quality. Cayuga ducks can lay 100-150 eggs per year that can be used for general eating and baking purposes. Eggs are initially black in color, but as the season progresses egg color lightens to blue-white by the end of the season. We have found that our eggs can be gray - just the first 2 then stay blue. The plumage of the Cayuga is uniformly greenish black and may become...
