Feed and Supplements 2

FEED AND SUPPLEMENTS

Flock nutrition is critical in the overall health and wellbeing of the fowl here on our farm. This is one of our main focus here is flock nutrition.

Our feed is Non-GMO and is formulated by top nutritionists in the industry. Our feed provides a unique vitamin and mineral premix with probiotics, digestive enzymes and extra vitamins and minerals that other commercial feeds lack.

WHY OUR FEED IS BETTER

The feed is made to order, it is FRESH, with a mix of ground and cracked grains. Most feeds are already 2 months old before they even leave the warehouse.

Vitamins and minerals are at their peak performance to ensure good health and vigor.

No preservatives or fillers.

Our added boosts: Oregano Oil for overall better immunity, internal and external parasite controls.

ADULT MOLT FEED BLEND NON-GMO

Product: Adult Molt Feed Blend Non-GMO

Features: No Preservatives or Additives, Non-GMO, Freshly Made, Vitamins at Peak Performance, Custom Made for Seasons, Pre and Pro-Biotics, Oregano Oil to help with Coccidiosis and Gut Health Naturally, High Amino Acids for Egg Quality - Hatchability - Feather Quality.

Use: To feed your adult fowl from point of lay. Feed in the summer months when hot, as soon as the weather temps are under 70 day and night switch to the Adult Feed Blend Non-GMO

Instructions: Keep feed in airtight container. Free feed your birds. Waterfowl need water always when eating. We recommend keeping feeders at the height of their backs, so adjusting them will be necessary. Birds tend to always go for the big pieces of feed or treats. This will help with waste. Make sure to have grit free choice for the birds and fresh clean water.

Quantities: at farm can purchase 5lb increments, 50 lb increments. For shipping 10lb, 20lb increments.

We here at Sugar Feather Farm, have done the hard work and found the best fowl feed we can find. As a farm who deals with rare, and unique breeds of fowl who require more nutritional needs than the average fowl. We were noticing that none of the commercial feeds that were available were meeting the needs of the fowl and we were also concerned with additives, preservatives and GMO's. We decided to go on a mission to find fresh and nutritionally balanced feed for our fowl here on the farm and also wanted to share this great feed with you! This is our Adult Blend feed. This feed is all inclusive for what your feathered friends will need at this stage.

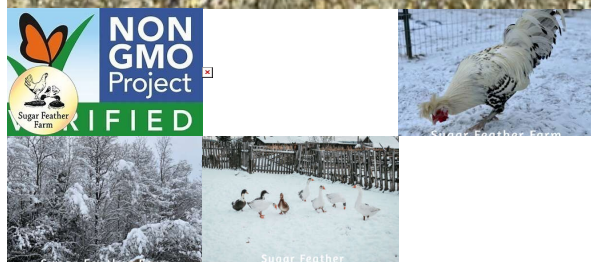

We get our feed custom milled and designed in PA at a Non-GMO project verified...

OIL OF OREGANO

Oil of Oregano containing Carvacrol has been found in University Studies to Reduce Bacterial Infection as well as Antibiotics. In a University of Tennessee study from July, 2001 it stated that among various plant oils, Oil of Oregano exhibited the Greatest Antibacterial Activity against common Pathogenic Germs such as Staph, E.coli and Listeria.

Piperine is an Extract of the Black Peppercorn that has been shown to enhance the absorption of this Oil through the Intestinal Wall.

Comes with complete directions for use on Poultry and will treat 100 Gallons of water. Bottle contains 60 ml of Oil of Oregano.

Historically Oil of Oregano has been around for centuries. It has been touted in humans, as an Antimicrobial with great healing powers and is said to work for sore throats, stomach upsets, and respiratory issues and as an antiseptic. Most of the accolades were anecdotal at best with very little if any Science to substantiate the claims being made.

Some forty years ago a movement started in Europe to ban the use of Antimicrobial Drugs as Growth Promoters. This movement was fueled by the thought that over use of Drugs as Growth Promoters was causing Drug Resistance in Animals which led to Drug Resistant Organisms in Humans. Today the ban is wide spread and gaining momentum World Wide. Here in the United States many Poultry Companies...
